

These are the changes that have been made in the terminology associated with the MA-model and D-world model. It is important to note that each column is a separate interpretation. You need never interpret the MA-model or D-world model conclusions theologically.

In this list, the following abbreviates are used. D = deductive, M = metamorphic, A = anamorphosis, I = intrinsic, U = ultra, N = natural, (o) = old terms, (n) = new terms.

Theological	Logical	Physical
Divine Deduction	(o) Superdeduction (n) Ultralogic	(n) IUN-process (n) force-like process
Divine word	(o) Superword (n) ultraword	(o) superword (n) ultraword (n) UN-object
